THE SAINT IN TEXAS. How an Editor Used a Cheap Valentine to Some Parpose-

The custom of sending valentines prevails to some extent in Texas. Some years ago, having occasion to stop over for a few days in a Texas town, I dropped into the office of the local newspaper the Bigds and made the acquaintance of the editor. He was a pleasant-faced young man, with a rather-showd expression. We talked about the weather, the crops, politics, and finally we conversed about St. Valentine's Pay, which was not far to the ball force of the plant was the should be affair to the bill fence. was a suspicious character in town.
He said at once that it couldn't mean

was going to break me in two for it the
first chance be got."

"Do you think he really meant it?"
"I know he did, so I resorted to strategy. Every thing is fair in love or in war."
"Where does St. Valentine's Day

come in?"
"That was just what I was going to fell you. I was becoming prematurely swaybacked toling a pistol, so I put up a job on the pair. It was risky, but out on the frontier you have to learn to
